SUMMARY

I'm a Computer Science student at Cairo University, specializing in Artificial Intelligence. I am currently enrolled in the Full-Stack .NET Web Developer track under the Digital Egypt Pioneers Initiative (DEPI), where I'm gaining hands-on experience in modern web development. Through personal and academic projects, I've been able to apply what I've learned in both frontend and backend development — building user interfaces, implementing backend logic, and deploying full-stack applications. I have a strong foundation in algorithms, data structures, object-oriented programming, and software design principles. I'm committed to continuous learning, with a focus on software engineering and data analysis to keep up with evolving industry standards.

EXPERIENCE

Freelance Front-End Developer

May 2023 –Now

As a freelance frontend developer, I specialize in creating visually appealing and user-friendly websites. I have expertise in HTML, CSS, Bootstrap and JavaScript, and I am skilled in creating responsive designs that work seamlessly across different devices. With my attention to detail and ability to work collaboratively with clients, I bring your ideas to life while ensuring that your website is optimized for performance and accessibility.

Graphic Designer Freelancer

Jul 2021 – Sep 2022

I create effective designs that communicate your brand's message. With expertise in Adobe Photoshop and Canva. I specialize in logos and branding. I work closely with clients to ensure that the final product meets their requirements and exceeds their expectations.

Summer Intern, Arab Bank

Sep 2023 - Oct 2023

Gained hands-on experience at Arab Bank, contributing to specific projects and tasks. Expanded understanding of IT-related financial systems and their integration with customer relations. Strengthened skills in tools relevant to the internship. This opportunity broadened my knowledge within the IT industry, complementing my expertise in web development and design.

EDUCATION

- **Computers and Artificial intelligence Artificial intelligence Department**

Cairo University

2020-2024

- **Digital Egypt Pioneers Initiative (DEPI) - Full-Stack Track (.NET Web Developer)**

SEP 2024 – Present
